

Environmental Policy

Hills Numberplates Limited is the UK's Number One supplier of manufactured vehicle registration plates and component parts to the UK Automotive industry based in Birmingham.

We recognise that our processes will impact on the environment and so therefore will act accordingly by implementing the appropriate measures and systems under the guidance of ISO 14001.

In order to achieve these overall objectives the following policy has been adopted

- To identify and use materials/processes that reduce the risk of pollution
- To identify our Environmental objectives, aspects and impacts
- To set periodic assessments of our objectives & targets to assess our continual improvement of our Environmental performance
- Compliance to all relevant Environment legislation and regulations applicable to our business
- Training of all personnel in all aspects of the Environmental Management System (EMS) in relation to their day-to-day work practices.
- To document procedures and processes to enable us to continually monitor and measure our environmental performance through regular measurement, review and audit, utilising a management system compliant with ISO 14001:2004.
- To provide this policy and other information on our environmental performance to any other interested parties including the general public
