

Component Ordering Information

Thermal Print Acrylic System

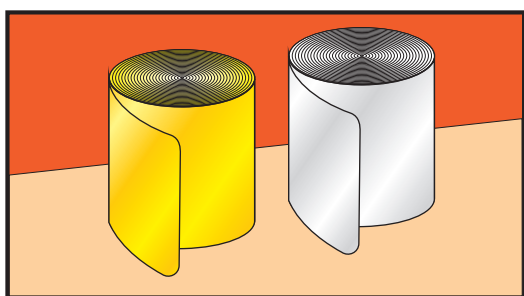

TS4

Listed below are the components you will need for your numberplate manufacturing system. They are as follows:

Dry (Non-Adhesive) Reflective Panels

Wet (Adhesive) Acrylic Plates

Thermal Printer Ribbons 4" or 8"

Dry (Non-Adhesive) Reflective Panels

Reflective Panels are white or yellow. They can be supplied either plain or printed with a logo, with or without a euro flag or national flag. The product can be supplied in rolls 25, 50, 100, 200's or flatpacked in quantities of 25. Various sizes available.

Wet (Adhesive) Acrylic Plates

This is the hard, visibly clear, part of the plate and has a peel off film on the back to enable you to attach it to the reflective panel. It also has a coloured film on the face of the plate to protect it from getting scratched or marked in anyway. These are supplied in pack quantities of 25. Various sizes available.

Thermal Printing 4" & 8" Ribbons

4" Pronto Printer

This ribbon is for use when manufacturing standard oblong plates and is supplied in packs of 3

8" Tec Printer

This ribbon is for use when manufacturing non-standard size plates and is supplied singularly

Both ribbons are fitted into the relevant printer
