

Health and Safety Policy

The scope of our business is the manufacture and distribution of vehicle registration plates and/or component parts for self-assembly to the UK motor industry. We also trade as Eyeway Signs as a manufacturer of signage to the care home industry.

We aim to provide and maintain safe and healthy working conditions, safe equipment and systems of work for all our employees, and to provide such information, training and supervision as is needed for this purpose.

We also accept that it is our responsibility to ensure the Health and Safety of other people who may be affected by our operations and activities; we therefore have implemented a system to continually assess our ability to

- provide acceptable control of the risks arising from our operations and activities;
- consult with our employees and others on matters affecting our health and safety;
- provide safe plant and equipment;
- ensure safe handling and use of substances;
- provide information, instruction and supervision of employees and others;
- ensure all employees are competent to do their tasks and are adequately trained;
- prevent accidents and cases of work-related ill health;
- comply with all relevant and current Health and Safety legislation which is applicable to our business' operations and activities;
- communicate this policy to all employees and interested parties; and
- regularly review this policy, processes and procedures to ensure continued suitability.
- Top Management will set and review OH&S objectives as an input and output of periodic Management Review Meetings.

Richard Taffinder – Managing Director
