

Environmental Policy Statement

The scope of our business is the Manufacture and Distribution of vehicles registration plates and/or component parts for self-assembly to the UK motor industry.

It is our policy to continuously improve our Environmental Management System, to enhance environmental performance, whilst also complying with customer and all applicable requirements.

We regularly review our policies and processes to ensure they are appropriate to the purpose and context of our organisation. To support our strategic direction we will monitor risks and opportunities that may affect our Environmental Management System.

We therefore have implemented a system to:

- protect the Environment to prevent the risk of pollution;
- implement and maintain an Environment Management system;
- continually monitor and measure our Environmental performance e.g. internal audit and evaluation of our compliance to all relevant Environmental legislation and regulations which are applicable to our business;
- identify our Environmental aspects and impacts and set achievable targets and objectives;
- promote and conduct Environmental awareness and training amongst our employees;
- reduce waste and wherever practical implement measures to reduce the Environmental impact of the company's processes, products and services; and
- give access to this policy and other information on our Environmental performance to all interested parties including the general public.

The contents of this employer's Policy Statement will be reviewed annually, or more frequently if circumstances change. Senior Management will set and review Environmental objectives as an input and output of periodic Management Review Meetings.

Implementation, maintenance and review

The Managing Director accepts overall responsibility for all Environmental aspects within the Company and is responsible for all policy implementation.

Rob Laugharne – Managing Director
